INSURANCE

"How much life insurance should I own?" Is a question many of us usually ask our life insurance agent. Perhaps you've had your agent answer by asking you a question in turn: "When do you plan to die?"

It's like the question, "How long should a man's legs be?" Abraham Lincoln is said to have answered, "Long enough to reach the ground." And like that, you should own enough life insurance to do the necessary job. Measure the amount of insurance against the job it needs to do for you and your family.

Your Council's Knights of Columbus Insurance Representative will help you decide on a well-rounded life insurance program and will help you keep your life insurance program up-to-date with your changing needs.

Take time now, to take stock of your life insurance. Get in touch with our council's advisor today. GUS CAWLEY, 231 Burroughs Terrace, Union, N.J. 688-2285.

INSURANCE

Suppose you owned a machine that you or your wife could crank each morning and turn out the money that your family needs that day--10 or 20 or 50 dollar bills, all perfectly legitimate. And suppose the machine produced that amount every day, week in and week out. Would you insure it against loss, fire and theft? Indeed you would. Mr. Breadwinner, there is such a machine in your family. IT'S YOU! But, remember, you're a money-making machine only as long as you are able to work and earn money. Are you and your family protected financially against the time you're no longer able to produce the needed 10 or 20 or 50 dollars a day? This protection is easy to come by! Rely on the professional counsel of your Supreme Council Representative who is Gus Cawley, 231 Burroughs Terr. Union, New Jersey. 688-2285.
